"Colors"

Visit "[Colors](#)" on MotoLyrics.com

Colors of my life
Glow with the sunrise,
And from the moment the sun sets
They all turn to love

I see the colors of stars
I see the colors of night

The paintings that I draw
Are washed away when the rain falls
But the colors that I have
Will always draw

Another painting when you...
Another painting when you go away
Life only keeps the piece of us
Only the peace we give to the others
For others will share the peace of ours
As long as they walk the Earth and live our love

Colors of my life
Fade with the moonlight
And from the moment I fall to bed
They all fall apart

I feel the colors of dark
I see the colors of us
