How can you stand there?
You're just a fake
And everyone knows who I am
You've done your damage
Tried to erase everything I am

I've never been your substance
Lost forever, I gave you your charm
You look at me once again
I've been other place
I've opened my eyes wider than you know

I've tried to relieve your suffering
But I fear that your in...
Give me on reason to be satisfied
My soul remains in contempt

I'm bleeding and lost forever
I gave you your charm
I despise you one again
Love is false, love is lies
Give me an exit, grant me the disguise

Give me one reason to be satisfied
My souls remains...
Beg for forgiveness, your last chance
This love is ending
Eternity escaped
