You set your sails and you're still waitin' for the wind  
You should know by now you just can't trust the weather  
And everytime you try to leave me it's the same  
Don't you think it's time we put our heads together

I know that you consider it  
It's doin' the right thing  
You know the way I figure it  
You're playing with lightning

I know that you consider it  
It's doin' the right thing  
You know the way I figure it  
You're playing with lightning

You packed your bags and now you're sitting out the  
storm  
The thunder sends you running here for cover  
And now your hiding place could prove to be too warm  
You may need to find yourself another

I know that you consider it  
It's doin' the right thing  
You know the way I figure it  
You're playing with lightning

I know that you consider it  
It's doin' the right thing  
You know the way I figure it  
You're playing with lightning

And I say oh, no, no  
It makes no difference where you go  
And the danger still remains  
Inside or outside

Doin' the right thing

Are you doin' the right thing

I know that you consider it  
It's doin' the right thing

You know the way I figure it  
You're playing with lightning

I know that you consider it  
It's doin' the right thing  
You know the way I figure it  
You're playing with lightning
