You think you know me
I'm sure I know you
All your problems in the past are dragging me down
deep

The voices screaming
The needles prickling
It suffocates and agitates my every breath, my every
step

Where should I begin?
I'm dying within
I'm losing my breath
And taking it in

Memories of the time that you showed that you loved
me,
Colors splashed across your skin

Don't fucking say that things are alright
Don't convince yourself that things are ok

Cuz' deep down inside
You know the truth
I can see it clear
Straight through your eyes

I just can't get you off of my lonely mind

I need you here to hold
My hand
My hand
Hold my hand

I need you here to hold
My hand
My hand
Hold my hand

And day after day,
You ask me to stay,
I'll keep you locked down,

I'll shut you away

And day after day,
You ask me to stay,
I'll keep you locked down,
I'll shut you away

Shut up
Step back
Erupt
Attack

I need you here,
Can't you see?

I need you here to hold
My hand
My hand
Hold my hand

I need you here to hold
My hand
My hand
Hold my hand

Again

Hold my hand
Hold my hand
Hold my hand
Hold my hand

Hold my hand

The sun burns out, and I gaze up alone
To the stars, in a park, where I had held you long ago
From the back of my mind, as if it were a dream
I could not control myself, as I rise and I scream:

I need you here to hold
My hand
My hand
Hold my hand

I need you here to hold
My hand
My hand
Hold my hand

Can't you see?

Can't you see?
