I had my doubts about you  
And all those promises we made  
I'm sorry to admit to you -  
It seems so real yet fake

This is what I've always wanted  
Never wanted anything more  
Than to call you my girl  
And in your arms I want once more

How good does this feel  
To be there by your side?  
I'll tell you one last thing -  
I'll tell you one last time

Shut the door,  
The light in the hallway is too bright  
Under the sheets, I remember this time

And be like this together  
(Be like this together)  
Like this now and forever  
Will you be there when I'm gone?  
(Will you be there when I'm gone?)  
Sound asleep - I know it's wrong  
And this time

Remember the spot next to me in my bed,  
Remember the spot where I put you to rest  
Where I kissed you lying down  
In my caress

And all the secrets I held back  
And all those times we used to laugh  
I know you more than myself, girl  
And that's a fact

We still have all our treasures  
Kept after all these years  
And baby girl, I'm in a whirl  
I wish I had you here

So many people out there,  
And you're my only one  
So shut the door tonight  
We'll have all our fun

Shut the door,  
The light in the hallway is too bright  
Under the sheets I remember this time

And be like this together  
(Be like this together)  
Like this now and forever  
Will you be there when I'm gone?  
(Will you be there when I'm gone?)  
Sound asleep - I know it's wrong  
And this time

Baby girl, I'm in a whirl  
(Baby girl, I'm in a whirl)  
Baby girl, I'm in a whirl  
(Baby girl, I'm in a whirl)  
Oh, baby girl, I'm in a whirl  
(Baby girl, I'm in a whirl)  
Baby girl, I'm in a whirl  
(Baby girl, I'm in a whirl)  
Baby girl, I'm in a whirl  
(Baby girl, I'm in a whirl)  
Baby girl, I'm in a whirl

In my caress
