Here we go, just another day
What problems are heading our way?
So many choices, what will we do?
The outcome all depends on you

Won't lay down - put up a fight
Choose what's wrong and what is right
Won't lose power or control
We won't listen to what we're told

Stop them from controlling your life
Just speak your mind and (Fight! Fight! Fight!)
Don't let others drag you down

Things in life come and go,
When and how we just don't know
What we do is all our own
And how we act, it makes us know

Life's too short to waste away
Do what you want and do it today
No regrets, no looking back,
Live each day like it's your last

What we do is important too
Fuck everyone who looks down on you
What the hell do they know?
Except for what's on their TV shows

Fake people full of lies
That's no way to live your life
Listen up and listen well,
Live it up or live in hell

Stop them from controlling your life
Just speak your mind and (Fight! Fight! Fight!)
Don't let others drag you down

Things in life come and go,
When and how we just don't know
What we do is all our own
And how we act, it makes us know

Life's too short to waste away
Do what you want and do it today
No regrets, no looking back,
Live each day like it's your last
