Ft Soulja Boy Tell'em

[Chorus]

When we start dancing
What we do. We hurt they feelings.
When we start dancing
What we do. We hurt the feelings.

Security step up deep [4x]

Whoop rico and break his neck.
Whoop rico and break his neck.
Whoop rico. Whoop rico. Whoop rico and break his
neck.[2x]

Boss

Go step to my battle field.
Where my niggas come from.
All we know is kill bill. That's right.
Breakin neck. We ain't showing no respect.
Try me. Some niggas at no will.
Now watch me slow it down and then I take it in slow
motion.
And then I speed it up. And take it fast like a nigga on a
top speed coaster.
Now where my goons at?
Load em up. Take aim and we ready to attack.
And ain't no backin down.
We go pound for pound. Round for round. We knock
em down.
Now if you think you got them hands. And nigga that's
the plan.
Ima knock yo a** down like the black Jackie chan.
The squad ain't loosing. These bi***s keep choosing.
And that's why (ay, ay).

Smurf

Let me get em. Man I gotta hit the flo.
Step into my fighting stand. And then I crank that
rambo.
Anyone can come and get it.
It's a war that I declare.

If you want a double duo. Then I bring out yogi-bear.
Watch us hit you left and right.
Combos coming once or twice.
We becomin stupid fast. Have yo whole clique scarred
for life.
Flawless victory on deck.
But it's time for round two.
Put my hands up on my hips,
Then I crank my Scooby-doo.

[Chorus
When we start dancing
What we do? We hurt they feelings.
When we start dancing
What we do? We hurt the feelings.

Security step up deep [4x]

Mike Dingo
Ay. They love to see me move.
Me and my whole crew.
Cuz everytime I lean they watch spectators try to do it
too.
So they keep on hesitating & hate, I put em in they
place.
I call my boy Tookie then we whoop rico in his face.
No time to conversate.
This ain't the time or place. Watch me have to whoop a
nigga a**
Like my name was Billy blanks.
This left a leave ya.
Then my dance, we crucial like brutality.
We leave yall whole click stuck. Like we stole the d**n
scene.

Trez
They said em twice. Another third times a charm.
But why would you holla back, if a nigga in front of you
ain't no harm.
He tried to lean, he tried to rock, but he can't do it quite
like me.
Cuz he keep doing the same ole move, constantly.
Now watch us kill this dance. Soon as we hit the flo.
Bout to get real crazy, don't turn yo head. We bout to
start the show.
First you bend yo back, and lift yo head. Use yo hands
and block yo head.
Roll yo arms and show yo swagg. Now break his legs,
arms, neck (yea)

[Chorus]

When we start dancing
What we do. We hurt they feelings.
When we start dancing
What we do. We hurt the feelings.

Security step up deep [4x]
