Looked at you one day, you did turn away
Since you're on my mind, there's no peace, I find
Sha la la I need you
Sha la la I love you

I can't sleep without you, for time love was true
Haved you go away, can't you hear me pray?
Sha la la I need you
Sha la la I love you

Honey can't you see what you mean to me?
We haved climb so high, why I love, should die
Sha la la I need you
Sha la la I love you

Please don't close the door, give me a chance once
more
Let me in and stay, smile at me and say
Sha la la I need you
Sha la la I love you
Sha la la I need you
Sha la la I love you
Sha la la I need you
Sha la la I love you
Sha la la I need you
Sha la la I love you
