If you got the weed I got the pipe we can get high
together all night
If you got the weed I got the light we can get high
together all night

It's 9:45 work start at 10
So look like I'm callin in sick again
I'd rather get some herb and kick it with my friends
Hit the beach and treat it like a weekend
Me and gin aint really speakin
So baby girl come over this instant
Got a new ride so fuck the speed limit
I live by the w's weed and women
I live on the beach down the street from cheech
I can't buy you a drink and it's not that I'm cheap I'm
just broke ma
To let you know but some how I always got some weed
to smoke
And if I don't I still get you high with my love under the
moon sky
21 years young got a limited time cuz were livin to die
so I'm livin it right

If you got the weed I got the pipe we can get high
together all night
If you got the weed I got the light we can get high
together all night

It was saturday took her to a play it was the matinee I
didn't even pay
Her daddy say he don't like my ways
Probably cause I hit it 3 times a day
Dropped her off late with a sticky face
So a kiss on the cheek is your mistake
Drivin down PCH with a smile on my face and a blunt in
my ashtray
A cute chick on my side and her ass great
Almost outta gas so we hit the bank
I haven't been paid so I told her thanks
Lent me the car then filled my tank
Yeah she in the scene yada-yada

With the scooby jean side-kick in her purse
Alexander McQueen I got my ripped t-shirt and some
brand new kicks but you know they're not clean

If you got the weed I got the pipe we can get high
together all night
If you got the weed I got the light we can get high
together all night

High together all night

If you got the weed I got the pipe we can get high
together all night
If you got the weed I got the light we can get high
together all night

High together all night
