You're a charm like the heart on your bracelet the
Only star I see from my spaceship from afar I could
Almost taste it, what it taste like?
It tastes amazin' flash your break lights,
I'll be patient but the way you're lookin' at me is
Drivin' me cra-zy definitely maybe I can't read the
Signs that you're sending me Baby,

I don't wanna wait all night x3
Just to watch you leave
I don't wanna wait all night x3
Just to watch you leave

Fire alarm goin' off in the basement.
And I don't know how long I can take it.
You're on my mind and I can't erase it
When I close my eyes, I see you naked
You impressed just a little bit, ain'tcha?
You can give me just a little kiss, Cain'tcha?
Tell your boyfriend you're puttin' on makeup
And meet me in the bathroom five minutes later

I don't wanna wait all night x3
Just to watch you leave
I don't wanna wait all night x3
Just to watch you leave

You the lock, I'm the key
You the kick, I'm the snare, let's make a beat
Nothin' in this world is free, except love
And the air we breathe

Do you wanna dance with me?
And see where it goes from there mon cheri
Mon cheri, we can see where it goes from there mon
cheri

I don't wanna wait all night x3
Just to watch you leave
I don't wanna wait all night x3
Just to watch you leave

Say babe, I been lookin for you since the Cassette tape
days,
Found me, then you pressed play
Had me waitin' for the next day
Stood me up like with his shades,
Hit me up with 'erry excuse to the point where what you
say is a loop.
And them otha' dudes fluke
I don't know why you datin' them
They lame like R&B groups
Say babe, Why you got me callin you my girl when you
Out here cheatin on mee?
All in the head of Tabi Bonney
But anyways... I need a lover like you babe
Old school and the hair like a toupee
My time witchu pre paid.
So sweet that soon I had no teeth.
Ima buy you a candy bank if you be my girlfriend.

I don't wanna wait all night x3
Just to watch you leave
I don't wanna wait all night x3
Just to watch you leave
