Welcome, strangers, the seld taught to all the  
speechmakers  
I invite all you uptight assholes to say what you need  
Before I rip out your soul, you're fucked  
But soon you'll wake up and backtrack the whack-ass  
words we made up  
Follow me into a brand new evolution, adapt and adjust  
There will be no more illusions

Turn me on now because I'm ready to go  
Rise above and beyond through the clouds and  
unknown  
Live for the thrill to feel what it's like  
You knew it would come, it was a matter of time

It's time too see all you go off, make the pit spin  
When the shit gets loud, you jump in  
Can I hear all the crowd , break em off then  
Now make that shit sounds loud

Got no time for the haters so fuck you  
Don't sleep 'cause we're coming through  
Won't catch my kind on 95.1 middle finger for the  
stereotype  
Had to take a chance to get this far  
Now look where you are, and look where we are  
Not naming no names in the one chance game but look  
to the stage  
And you will soon see

Us kick up dust, giving up no slack  
Been catching some shit, now I'm throwing it back  
Wishing for the downfall but all in all  
Its just part of the play so I say fuck them all

Let's make some noise  
Break through the ground up to make noise and come  
with  
Let's work that shit  
One last time... don't quit

Jump in, jump in, jump in,

jump in, jump in, jump
