"Your Eyes"

Tonight, i turn out the lights
And think about the times we had
No twilight shine in your eyes
For you are not around to pick me off the ground

And you are the one that made me see
That love sometimes isn't what it seems.
Hold on to what i've got to make it last
Cuz you are just a memory in the past

My light, that once shined bright
Has busted on the floor and died
No twilight shine in your eyes
For you are not around to pick me off the ground
