Walkin in the moonlight  
Down those empty streets  
It's here I wonder  
If you're thinking of me  
Lost and feeling lonely  
'Cause you're worlds away  
Time has no feeling  
And I learn that each day

When one by one  
The stars  
They take away the sun  
Once more  
A lot that I can do is real  
I said

(I can't fight the nights)  
Without you  
(I can't fight the nights)  
There's no way  
(I can't fight the nights)  
Without You  
I can't fight the nights

Can you hear me calling  
I'm at the edge of the line  
You got the power to save me  
It's a matter of time  
So I just keep on waiting  
For a knock on my door  
We can turn time around  
To make love like before

'Cause In my heart  
I know the stranger  
In the dark  
Is you  
Your memory keeps haunting me

(I can't fight the nights)  
Without you

(I can't fight the nights)  
There's no way  
(I can't fight the nights)  
Without You  
I can't fight the nights

(I can't fight the nights)  
Without you  
(I can't fight the nights)  
There's no way  
(I can't fight the nights)  
Without You  
I can't fight the nights

Well if there were half a chance  
To catch a moment with you  
I'd lock it on forever  
I won't let go  
I can't let go  
Let go of you....

When one by one  
The stars  
They take away the sun  
Once more  
A lot that I can do is real  
I said

(I can't fight the nights)  
Without you  
(I can't fight the nights)  
There's no way  
(I can't fight the nights)  
Without You  
I can't fight the nights

(I can't fight the nights)  
Without you  
(I can't fight the nights)  
There's no way  
(I can't fight the nights)  
Without You
