I know you don't belong to me
But you're part of my life
You're all of my dreams
The one shining light

You want my love
If you wanna be free
To be who you are
To reach for your star

You can be all that you wanna be
Just love me, love me
I can be all that you want me to be
Just love me, love me

I wanted to possess you
But you drew the line
And the more I let go
The more you were mine

And nothing can change the way
That we feel
It's a fate accompli
We're all that we need
Just you and me

You can be all that you wanna be
Just love me, love me
I can be all that you want me to be
Just love me, love me

Oh I can be all that you want me to be
Just love me, love me

Oh when you touch me that way
All my insecurity just fades away

You can be all that you want to be
Just love me, love me
I can be all that you want me to be
Oh love me, love me

You can be all that you want to be
Just love me, love me
Oh I can be all that you want me to be
Just love me, love me
