"Under Fire"

Running every day
Trying to fade away
Into the background of purple and grey
I drift alone
With a heart of stone (Running forever)
Caught in a crossfire

Living for the chase
Watching every face
A hunt to renegade a stranger in town
Standing in the shade
Every night i pray (Pray for the future)
But never look back

(Under fire)
I need a place to hide
(Under fire)
Or I'm gonna lose my mind
(Under fire)
I'm way beyond the law
(Under fire)
I cant ** no more

Standing in the rain
I never show the pain
Got no direction or destination
Gotta hold on tight
'Cause here comes the night
(Running forever)
Caught in a crossfire

(Under fire)
I need a place to hide
(Under fire)
Or I'm gonna lose my mind
(Under fire)
I'm way beyond the law
(Under fire)
I cant ** no more

solo

(Under fire)
I need a place to hide
(Under fire)
Or I'm gonna lose my mind
(Under fire)
I'm way beyond the law
(Under fire)
I cant ** no more

(Under fire)
I need a place to hide
(Under fire)
Or I'm gonna lose my mind
(Under fire)
I'm way beyond the law
(Under fire)
I cant ** no more
