Tellin me every move you making
And who you making it with
You cannot hide from me
Who you been talking to
And walking into the house last with?
They know it isn't me

How you been dancing up close and personal
How you been getting your groove on
Dreading the day I see you up in the action
Up in the mix
That's when your gonna see me switch

Chorus:
No I don't
Want to know
What you do
When I'm not with you
Coz if I do
Know what you get up to
I might have to
Do something that I should'nt do

You got them thinking you're single
Coz your out and mingling with
All the women just passing through
Roll with the boys every minute
Using up the same excuse
"It's somebody's birthday do"

I know you've been dancing up close and personal
I know you've been gettin your groove on
Did you ever think
I don't suss what you've been gettin into
One day it's gonna catch up to you

Chorus:
No I don't
Want to know
What you do
When I'm not with you
Coz if I do

Know what you get up to
I might have to
Do something that I should'nt do

You better not let me catch you
If you're up to no good
I'll embaress you
And if you think that I'm joking with you
You'd better go ahead I'll show you

Chorus:
No I don't
Want to know
What you do
When I'm not with you
Coz if I do
Know what you get up to
I might have to
Do something that I should'nt do
