Have you ever wondered if it smarts when your heart is
ignored
And the sort becomes love
Though I waited for you
Oh
How I adored you

You never saw my face
I traced your path each day
We'll be always together

Now I watch you bleed
You had all I need

How I love you so
Now we'll never know

If I can't have you

I even did the research
Went to work
Learned to flirt
Wore a skirt and faced dirt and it hurt
Still you never noticed
You never focused on me

You never saw my face
I traced your path each day
You never lifted your eyes to meet mine

Now I watch you bleed
You had all I need

How I love you so
Now we'll never know

Now I watch you bleed
You had all I need

How I love you so
Now we'll never know

If I can't have you
If I can't have you
If I can't have you
If I can't have you
