Sparks turn flame
When hearts start to chaise
You're falling if you're running straight into the smoke
But light start to dim when it's almost in love
But please light this place!

Fire flies tonight
Cause love lights the sky, sky, sky

Babe, it's only right there your shell
Pass the loving, put it in the atmosphere
If you won't keep it rolling and living in the air
Just keep it in rotation, so the cloud going nowhere
Just place like this place!

Fire flies tonight
Cause love lights the sky, sky, sky
Yeah, yeah, yeah
So pull it up in,
Pull it up in the air
Pull it up in,
Pull it up in the air
Pull it up in,
Pull it up in the air
Pull it up in,
Pull it up in the air
Pull it up in,
Pull it up in the air
Pull it up in,
Pull it up in the air
Pull it up in,
Pull it up in the air
Pull it up in,
Pull it up in the air
Yeah, yeah, yeah, yeah, yeah

Let it burn, burn, burn
Let it burn, burn, burn
Let it burn, burn, burn
Let it burn, burn, burn
Let it burn, burn, burn
Let it burn, burn, burn
