(Intro)

I fight a battle every day  
Against discouragement and fear  
Some fool stands always in my way  
The path ahead is never good  
I must forever be on guard against the doubts that  
skulk along  
I get ahead by fighting hard  
The fighting keeps my spirit strong

(Verse)

If a mirror showed your heart  
Pieces would fall from you good  
No more hiding in the dark  
I see you for who you are  
I can rearrange the parts  
Take the temper of the gods

(Bridge)

You were changing faces, switching like a dream at  
night  
(Switch them like a...)  
You can't even tell the truth to save your fuckin life  
(I am fuckin you)  
Would've gave my life for you, would've paid the  
price  
(I would've gave my life for you)  
When wagered all for you I never thought I'd die

(Interlude)

Won't surrender to your arms  
No peace on the alarm  
So more reasons to hold on

(Bridge)

Now who's in your army?  
Instead of shooting from the flame  
Now you're crying softly  
You can see the bullets in the air  
Wanted you to love me  
But you never seem to care

(Chorus)  
Warfaire (warfaire)  
All good (it's all good)  
Right here, what you wanna do (I ain't scared)  
Warfaire  
All good (it's all good)  
Right here, what you wanna do  
You wanna do

(Verse)  
Hey what you wanna do?  
What you wanna do if a mirror showed your heart?  
Would I see another life?  
Would I make the run turn right?  
Don't wanna be another's clock  
But I fell in love with all  
All your bullshit and your charm

(Bridge)  
You were changing faces, switching like a dream at  
night  
You can't even tell the truth to save your fuckin life  
Would've gave my life for you, would've paid the  
price  
When wagered all for you I never thought I'd die

(Bridge)  
Now who's in your army?  
Instead of shooting from the flame  
Now you're crying softly  
You can see the bullets in the air  
Wanted you to love me  
But you never seem to care

(Chorus)  
Warfaire (warfaire)  
All good (all good)  
Right here, what you wanna do  
Warfaire  
All good (all good)  
Right here, what you wanna do  
You wanna do

Hey, what you wanna do?
