The coldest wynter has a face
with hair that shine like gold
Ice could melt the sun away
and burn through you like cold
Summer love like summer snow
Can't see past the pain
She is more than what we know
More than what we know

Like ice breaks
When beauty glows
in the dark
Twilight fades
in her heart

The coldest wynter
that she ever felt
She couldn't see the avalanches break
But every season
has its perfect day
And wynter is her name
Here she goes again

Like ice breaks
When beauty glows
in the dark
Twilight fades
in her heart
