Even though after clouds is rain
Even though after rain are clouds
Eventually, it'll clear into blue skies
There's just one thing
That I want to tell to you first
"Your dreams won't leave you"
Sadness will always
Steal away your tears
But one by one, all those insufficiencies
Will be hidden in my heart
Even that is a very important thing, isn't it?
Let's keep looking ahead
Even nights that seem too long
Even nights that seem too cold
They won't continue like that much longer
There's just one thing
That I want to tell to you first
"The sun will rise again"
Everytime you remember your pain
I'm sure you can become kinder
Even tears will always be the trick
For lighting up that gaze
Even that is a very important thing, isn't it?
Let's take a little rest
Even though after clouds is rain
Even though after rain is clouds
Eventually, it'll clear into blue skies
There's just one thing
That I want to tell to you first
"I'm always by your side"
Even though after clouds are clear skies
Even though after clear skies are clouds
Your own heart decides on happiness
Because of that, don't be confused
By what you see around you and shine for me
"Brighter than anyone"
Even nights that seem too long
Even nights that seem too cold
They won't continue like that much longer
There's just one thing
That I want to tell to you first
"I love you more than anyone"
