One day I'll see your the eyes

We'll stare into these times
But we fought and I wasted time away

Way down â€¦

I'm lost in this senseless time
I'm feeling that all I'll find
Is a hair in my behind
Lost and what I'll find down

Way down

What the fuck? You can't break me
All the shit you try and bring me
You swallow and I'll come for you
All the shit you make me go through

I want to be insideâ€¦
Your fucked and demented mind
You see this but you decline
Now bored and I wasted timeâ€¦ a waste

What the fuck? You can't break me
All the shit you try and bring me
You swallow and I'll come for you
All the shit she made me go through

Fuck you
