

## Sick City "City Lights"

Visit "[City Lights](#)" on MotoLyrics.com

Can you baby, phone me when our city's lonely crawl  
into our bed  
Remember, I am home soon, I can tell you,  
Warmer is the air than former nights we used to spend  
But I wish I was home with you

All I can do is wait here for you under these city lights  
All I can do is wait here for you

I can tell you come fall we'll move to Montreal  
We'll get that one bedroom and lock ourselves inside,  
we can hide there,  
Evenings filled with heavy breathing like  
Hey Mercedes days when we were young and things  
were right  
Cause all I can do is wait for you here  
Under these city lights
