"Take A Bow"

Powerless, depressed
I try to conceal all the wreckage inside
But they are denied the basic rights
Hand-delivered to all of mankind

[Bridge]
My patience tried
Forgiveness died
My hands are tied
Let go
All of the scars built up the walls
Life drifting far below

[Chorus]
Instinct can't save you now
Man stand up, take a bow
The sun always hides behind the clouds, always

Tell me when did we lose our way
Why is the whole world our prey
Inhumane is the trend nowadays
How much more can they pay
In the end

[Bridge]

[Chorus]

How blind we've been to let destructive forces fly
Deaf ears hear them, closed hands feel them
Empathy begins when all this ends

End all innocent lives right now
For we bring nothing and claim the crown
