They took they drugs and left  
You stranded down in Mexico  
Half-formed wandering the desert  
You had blood on your soul  
But what did ya know  
I been told blood makes the grass grow  
Baby what do ya know  
You got to let it roll  
But what would I know?

I know how high the grass will grow  
We'll leave our skins outside the door  
It will be like it was before  
I forgot I was alive

What do ya know  
I been told blood makes  
The grass grow baby  
What do ya know  
Ya got to let it roll  
But what would I know?  
I forgot I was alive
