We kill the eyes
In the face of the sky
Its there and its gone
Hissing at Gods
Listening for a song
The stars all go wrong
Taste the moonlight on your tongue

Your cocaine bones
Caught in the Spider's Web
I've got spiritual hands
I've got an animal's head
Listening for a song
The stars all go wrong
Like moonlight on your tongue
The stars have all gone on

Like moonlight on your tongue
Here and then its gone

Like moonlight on your tongue
The stars have all gone on

Like moonlight

Like moonlight on your tongue
There and then its gone

Like moonlight...
