So familiar but unfamiliar
Like a stanger when I'm with ya
Use to know you like the back of my hand use to know
you closer than the closest of friends everything is
different now you've changed and I don't know how if I
could go back to yesterday I'd show you how much
you've changed.

You no longer like your eggs over easy (no) and when I
tell you that you changed you don't believe me (no)but I
tried so hard, to make you see, your not the same, you
changed

I used to know you like I made you myself, but I don't
even know you no more, it's like I'm layin' next to
someone else and I don't even know you no more

Cause you used to be,
The one I was in love with
You use to be,
The one I couldn't get enough of baby
Can you tell me why you changed
Girl you on a different page
I don't even know you no more
(more, more, more, I don't even know you no
more)(repeat once)

Once upon a time I could look into your eyes and see all
the love you had inside now I'm blinded like a deer in
some head lights and you change from day to night I
just want how it was

You no longer like your eggs over easy (no) and when I
tell you that you changed you don't believe me (no)but I
tried so hard, to make you see, your not the same, you
changed

I used to know you like I made you myself, but I don't
even know you no more, it's like I'm layin' next to
someone else and I don't even know you no more

Cause you used to be,
The one I was in love with
You use to be,
The one I couldn't get enough of baby
Can you tell me why you changed
Girl you on a different page
I don't even know you no more
(more, more, more, I don't even know you no
more)(repeat once)

(more, more, more, I don't even know you no more)(in
the background)

Girl the way you approach me is not the same can you
tell me what happened, where did we go wrong love
use to be so strong what happened, I gave you all my
love girl I guess it wasn't enough girl come on and talk
to me I want to know what happenend baby

I used to know you like I made you myself, but I don't
even know you no more, it's like I'm layin' next to
someone else and I don't even know you no more

Cause you used to be,
The one I was in love with
You use to be,
The one I couldn't get enough of baby
Can you tell me why you changed
Girl you on a different page
I don't even know you no more(repeat once)(more,
more, more, I don't even know you no more)(repeat
once)
