Bury this and the rhythm of breath, There is only death
Maybe you're dead and you just don't know,
A shadow dressed only in sorrow
Tomorrow might not exist and ya shoulda been dead

(Chorus)

Shoulda been dead like ten times over
Like ten times over

Shoulda been dead like ten times over
By the hand of your lover
By the side of the river shoulda been dead

(Chorus)

Bury this song and the rhythm of breath
There is only death
There is only death, only death
These radiation blues sista
Gonna make me true
Movin' thru the bones of you
These radiation blues
Movin', movin', movin', movin'

(Chorus)
