Time goes by so fast
One last breath, is all I have
people come, they fade
Try so hard to shape these words
I cannot formulate

(chorus)

Harder enough to breathe
Harder enough to fall
I'll be sitting on your back porch
Trying to figure out who you are
Made in the factory of broken parts
I know better, you know better
I'm no better

When you dance
You dance alone
Follow suit - your own disco ball
people come, they fade
Clear the dance floor
Let's dance the night away, disco lemonade

(chorus)

It's what you say
3 X repeat

The Best Thing

it was the best thing
the best thing
you were just standing there
serenity
it was the best thing
the best thing

now I want you to go away
you know this timings had it's past
why'd you break my heart
you know this feeling never lasts
when you go away

slow down
watch yourself drowned/drown
make up for memories of past things
that make you wanna turn your life around

it was the best thing?
The best thing
you were just standing there
serenity
it was the best thing?
The best thing

now I want you to go away
you know this timings had it's past
why'd you break my heart
you know this feeling never lasts
when you go away
