Now, Some of you should understand - The Psycho  
This Trifled, A mad man with a knife and a rifle  
I tried so hard just to let you go  
But everytime i think of you I just lose control  
I've got a bloody nose from the line i just did  
I'm calling up your phone to see how you live  
Without me in your life  
Without me in your bed  
Without me by your side  
Without me in your head  
But theres never an awnser I don't think she loves me  
anymore  
I think she's fucking someone else  
And I'm losing control  
The phone rings again and again  
"Where you at you fucking bitch" on the voicemail  
Its all i said  
Then i smash my phone because I'm all alone  
While your out there getting Boned  
and i'm calling on the phone  
Fuck that bitch  
Give me my respect  
Or death is your alternative  
Without you there ain't nothing left

You will feel my pain  
You will feel my touch  
I will watch you die  
Because i love you so much  
Now you will be mine  
I will watch you die  
You will feel my touch  
Because i love you so much

Now i'm going in my car down I - 25  
I got the coke in the bullet and the jim beam by my side  
I'm drunk, swerving into mother fucking traffic  
My girl is disrespecting me  
I'm not gonna have this!  
Up the exit I go as my adrenaline flows  
My nose is still and bleeding  
And i'm feeling cut-throat

As i approach there's a car in the driveway  
Who the fuck is that?  
And why are they in my fucking parking space?  
I creep up and I look in the window  
I'm seeing nothing but I think i'm hearing downlow  
I can't go now my home is in danger  
And even though youve been gone for a while  
You ain't leaving for a stranger  
I love you and only love me  
We're gonna settle down someday and we're gonna  
have a family  
It's sad to see that I couldn't make you understand  
But if i can't have you then no one can

You will feel my pain  
You will feel my touch  
I will watch you die  
Because i love you so much  
Now you will be mine  
I will watch you die  
You will feel my touch  
Because i love you so much

I knocked on the door with no prevail  
But when she finally opened up  
The bitch scratched me with her fingernails  
Who the fuck is that in my driveway!?

I told you when we got together it was to be my way  
And now you wanna disrespect me like this!?  
I hit her in the face about three times with a closed fist  
Now she's panicing and screaming calling for her lover  
When he came into the room  
I was standing right above her  
With her hair in my fist  
Makeup running down her face  
What the fuck you thinking taking my place?  
"I think not mother fucker"  
So i dropped the bitch  
I felt her try and grab at feet with her bloody fingertips  
So i kicked her in the face knocked her bitch ass away  
Now i'm standing face to face and my heart is in haste  
I hope you know your dying tonight  
You invaded my home  
And now i'm taking your life

You will feel my pain  
You will feel my touch  
I will watch you die  
Because i love you so much  
Now you will be mine

I will watch you die  
You will feel my touch  
Because i love you so much

I grabbed him by the throat and he punched me in the  
nose  
I'm think he broke the mother fucker cause there's  
blood running down my throat  
"You done fucked up" is all i said  
And i proceeded to beat him until the carpet turned  
blood red  
Come here bitch, you ain't off the hook  
You're gonna watch your lover die  
And close the final chapter in the book  
Of our relationship and life together  
I tried to make it go away  
I tried to make everything get better  
But that was never good enough  
Always busy right?  
All i ever tried to do was give you better life  
And as i choke you I know you can see  
How much i love you girl your the one for me  
fade away sweet baby  
I'll see you on the otherside  
Cause when you let go  
I'm gonna take my own life  
And as her eyes roll back in her head  
I pull the gun out cock the hammer put it to my head  
And i said:

Now i take my pain with this final touch  
I will die tonight  
Because i love you so much  
Now you will be mine  
I said you would in time  
Now i feel the guns touch  
Because i love you so much

Because i love you so much  
Because i love you so much  
Because i love you so much  
Because i love you so much  
Because i love you so much  
Because i love you so much  
Because i love you so much
