Ya think you're smart, ya think you're funny  
but look at the kids who've got all the money  
yeah, go ahead and try to stop me  
our last tape sold nearly thirty copies  
this past summer we played 2 shows  
ya gotta understand that's the way it goes  
cuz I see you're jealous, and I see you pout  
over 400 dollars in my bank account  
yeah we get around, yeah we've been around  
everyone love the SideSplittaz sound  
so when you steal our shit, you know we'll replace it  
put it back together and then you get wasted  
all the mexican girls dream of Lombado  
all the mexican ice cream is helado  
if my dad was black I would be a mulatto  
if my dad was black I would be a mulatto  
Vijay!  
Get the fuck off that bass  
and shove the microphone in yo face  
don't rip don't trip don't do us wrong

we want to hear yo vocals on the mofo song  
Brass knuckles and beats I got the bass flo  
in your face cuz I'm a sand negro  
straight from my fists I bring the funk sound  
talk shit about my band and I'm a have to pound  
yo ass in the grass and I'll see ya later  
I bring the hardcore song and the ethnic flavor  
my mind may be warped my heritage fuck  
but I got tha spice to deal with the sluts  
yo Lombado may deal but just watch me reel  
face in the ground I'm a have to peel  
a'ight?  
stay away watch out for my bite  
if I wasn't Indian my next choice'd be white  
I'm violent as violent as they come  
and if you look at me wrong then I have to jump  
I may be afraid of the U.S. border  
but I got more rhymes than BK's got orders
