Once I felt in the air
I saw it in the weary smiles of
All the ones who passed me by
I heard it in their prayers
The kind that cried out,
"Help us God and bring us to a better day"
But I know that You were always there
Though I may not understand

All we need is Hope
All we need is Faith
All we need is Love to bring us
Closer to our better days
All we need is Grace
Forgiveness and Your touch
All we need is Truth to guide us
Closer to our brighter days
All we need is You

Now I see it in their smiles
So full of life and endless love,
I never thought that I would see
I hear it in their laughs
The kind that say, "Daddy play with us,
We want it like this every day"
Now I thank You for Your faithfulness
For You've made me understand

All I have is Hope
All I have is Faith
All I have is Love to bring us
Closer to our better days
All I have is Grace
Forgiveness and Your touch
All I have is Grace
Forgiveness and Your touch
All I have is Truth to guide us
Closer to our brighter days
All I have is You
