

Sidonie "On And On"

Visit "[On And On](#)" on MotoLyrics.com

U can dry the rain if u want to play
U can hide the storm in your left hand pocket
I was so afraid, every night (Every night I was so afraid)
Seeing the trees playing with the deaf

My mind explodes
And your body's lazy
I'm running through the woods
Behind the insects
Just to take home
A little wild honey
And keep your mouth
A little bit closer

On and on
I sleep inside the shell
All alone at home
U can steal the best
On and on
I'm reaching the dome
Change your time into void
Paint it black all your troubles
Change your time into void
Paint it black all your troubles

Catch the bus to go nowhere
All u can see is people without a face
Everyone of them wanna climb to the sky
But they missed to pedal the bike
