You have coffee when I have a pee
You start bitching about everything linked to me
On this record played for too many times
Don't you think we've discussed in to the nines
I just turn a deaf ear to you hold your tongue or tell me
something new
I just turn a deaf ear to you I'm wandering you're still
around
Stick to your guns or shut your mouth I don't know why
you're still with me
You neither do as far as I can see bite back your
speech
Just fade out your voice it makes me sick ending is
better than mending
And even you - got the plan to make me someone new
- got the plan to make me someone new
And even you - do not have the view to pull it through
- do not have the plan to pull it through
Bite back your speech just fade out your voice
It makes me sick ending is better than mending
And even you - got the plan to make me someone new
- got the plan to make me someone new
And even you - do not have the view to pull it through
- pull it through, pull it through, pull it through
