You have coffee when I have a pee  
you start bitching about everything linked to me  
on this record played for too many times  
don't you think we've discussed in to the nines  
I just turn a deaf ear to you hold your tongue or tell me  
something new  
I just turn a deaf ear to you I'm wandering you're still  
around  
stick to your guns or shut your mouth I don't know why  
you're still with me  
you neither do as far as I can see bite back your speech  
just fade out your voice it makes me sick ending is  
better than mending

and even you - got the plan to make me someone new  
- got the plan to make me someone new  
and even you - do not have the view to pull it through  
- do not have the plan to pull it through  
bite back your speech just fade out your voice  
it makes me sick ending is better than mending  
and even you - got the plan to make me someone new  
- got the plan to make me someone new  
and even you - do not have the view to pull it through  
- pull it through, pull it through, pull it through
