Watching the times go by  
Can you tell me why- my life is on and on an on without  
a call  
Tearing me up again  
Try to find my sense  
Is there a way to do it?  
Well I can live in my dreams  
Where I find what it needs for me to get me through  
the day  
Again and again  
Year I can live in my dreams  
And noone will ever take my dreaming away  
I travell the seven seas  
Ride through deserts with the wind  
I'm hiking up the hills to Katmandu  
It's a never ending show  
Be wherever you wanna go  
There's no fear to see no limits  
I can live in my dreams  
Where I find what it needs for me to get me through  
the day  
Again and again  
Year I can live in my dreams  
And noone will ever take my dreaming away  
It's my own private room  
It's where I can be myself  
Where the voice tells me not  
What to do or not to do  
Where I'm the captain of my fate  
It's a place my mind can stay  
Where I find what I'm searching for  
But when I try to make it real  
All I get is just pain  
I can live in my dreams
