VERSE 1:

I'll start from the top
She was staying out all night
And I was next to the phone counting down the seconds
I know it's sick, but I can't help it
And I'm not one to jump to conclusions
But I need this prescription to help me find a solution

PRE CHORUS:

And I keep your words written on my arm
To bare the truth and remember what you are

CHORUS:

Doctor you gotta listen
My heart stopped beating when she said she adored
him
So find a scalpel and cut in deep
I gotta get her ghost out of me
Doctor listen listen
Put me under and start the incision
Find a scalpel and cut in deep
I gotta get her ghost out of me tonight

VERSE 2:

So rip me open
Pull out my organs
There's gotta be a part of me that isn't so forgiving
And I'm not one to be so obsessive
But I can't go on breathing if she's the reason I'm living
Close your eyes count back from ten

BRIDGE:

You've pushed me for the last time
(Oh), now you've gone and done it
(Oh), now you've gone and done it
You've pushed me for the last time
(Oh), now you've gone and done it
(Oh), now you've gone and done it
All we know is how to hurt
To twist the knife and make it worse
All we know is how to hurt
To twist the knife and make it worse

LAST CHORUS:

Doctor you gotta listen
My heart stopped beating when she said she adored
him
So find a scalpel and cut in deep
I gotta get her ghost out of me
I say doctor listen listen
Put me under and start the incision
Find a scalpel and cut in deep
I gotta get her ghost out of me tonight

CHANT LINE:

You've pushed me for the last time
Oh, now you've gone and done it
Oh, now you've gone and done it
