If my heart was broken  
Could you sew it back together with your eyes  
Stitch back up the pieces  
Give me one more reason to say goodbye

Don't forget I'll try to write  
And yes I'll try every night  
Close your eyes  
Kiss me one last time, it's over  
Never say good bye  
Kiss me one last time, it's over

Its eight in the morning and the phone is ringing  
Its over  
Turn your back and walk away  
I know it's hard but it's okay  
And it's over, it's over. Yeah.
