Skapaður mynd manns láki karls og
Konu tvífalld var sá synd hans sgaði hans
Sonur ekki hryggja heldur sefa mæn láfs-
Speki alltaf rétt?
Betra er að þiggja en gefa sagði sá ríki og
Áll hans stótt ágg sem kenndi hær svo margt
En engin nam þá að á mig fók en ágg lári
Að láfi hær var hart enda var ágg þá sem á
Krossinum hók heiðarlegur einfari þá var ágg
þá ágg sver
En hinn breiði vegur var greiðfari hann geng ágg
og krossinn ber
Alla tíð

Unofficial Song Translation

Created in the image of mankind
In the form of a man and a woman
Double was his sin said his son
For all of eternity a never-ending war
My soul leaves no one sees don't deject but soothe
My philosophy, always correct?
It is better to accept than to give
said the rich one and all his class
I who taught here so many things
but no one listened - that troubled me
but I learnt that life here was hard
after all, it was I who hung on the cross
An honest loner, that was I, that I swear
but the broad road was easier to pass
that road I walk and the cross I bear
