We drove all around  
Through sun and pebbly dust  
We all saw so much  
Even the cradle and asphalt of the world

We played  
(hopelandic)  
We played  
(hopelandic)  
We played

The long day flows  
Yes, endless is the over-brightness  
Smoke stings the eyes  
Yes, it pops up in my head and now I remember it

We played  
(hopelandic)  
We played  
(hopelandic)  
We played everywhere

We all saw so much  
Yes, saw all and everything in a new light  
The long day flows  
Yes, it pops up in my head and now I remember it

We played  
(hopelandic)  
We played  
(hopelandic)  
We played everywhere  
(hopelandic)

We play endlessly  
We play endlessly together  
We play everywhere together  
We sing all together

(hopelandic)
