It's too late for me,
I've been gone for so long
I can't remember who I am
Just forget I'm here
You'll be better off without knowing the things
I could have done - I would have done to you

[Pre-chorus:]

I wish I never left the womb
So just lock me in my tomb
And forget that I was here (forget that I was here)
It looks fine from where I lay
As I'm stuck here in my grave
So I'll just disappear (I'll just disappear)

[Chorus:]

Goodbye Sunshine, I don't need you anymore
Goodnight Sunlight, I'm better off alone
Rip, my, spine, right out of my back
Goodbye Sunshine, Goodbye Sunshine
Goodbye

On the verge of being ruined
My life's better left untuned
I never knew that right was wrong
Put me out of your mind
And fail to remember all the things I said
The things I said that meant nothing to you

[Bridge:]

I had, to push you out, to push you out this time
Like every time before
I have, nothing left, there's nothing left for me
There's only misery, only misery
