[Verse 1:]

Save your breath  
You'll be doing us a favor if you bite your lip  
I love when you bite your lip.  
I can bet  
The only time you feel good's when I'm down

[Chorus:]

You're only making things worse,  
Than they already are  
Shift to reverse,  
Because we've gone too far

You're only looking for a reason so that you can  
escape  
So let's forget  
All the time we've shared  
You'll feel regret  
But your heart is spared  
If you're searching for an answer, you'll accept your  
mistakes

It's all, we can do

You know, that it's true, so just move on.

[Post Chorus:]

You're waiting, for something  
You know will never come

[Verse 2:]

You try your best  
But your best falls shorter every single time  
You waste my time.  
I'm not impressed  
By your failure to regret what you have done

[Bridge:]

So is this what you want to hear?  
Excuses to ease the pain

So I guess I'll disappear

Â'Cause thereÂ's nothing left to gain.

[Coda:]

So take, it back, the promises you swore that you would  
keep

So fade, to black, youÂ'll see in color when you are  
asleep

So take, it back, the promises you swore that you would  
keep

TheyÂ're broken and theyÂ're empty now  
So fade, to black, youÂ'll see in color when you are  
asleep

ItÂ's all that your dreams will allow  
(YouÂ're waiting, for something, you know will never  
come)
