All I need is a sign
Iâ€™m waiting for one indication
Iâ€™m waiting for your invitation
Iâ€™m infected with your bad habit
Youâ€™re injected like a drug addict, I know
But once inside then I am fine,
Yes everything will be just fine

[Pre-chorus:]

Choking on the bitter taste of irony
(The taste of irony)
Iâ€™d rather give in than to face my enemy

[Chorus:]

Youâ€™re making this too hard for me to resist
How can I say no if you beg and insist?
Youâ€™re such a contagious disaster
And Iâ€™m just addicted to the flavor of your kiss

When others glow, you shine
Though it may sound surprising
You have this look thatâ€™s mesmerizing
But temptation has me by the throat
My fixation needs an antidote, tonight
And once again I will be fine,
Yes everything will be just fine

[Bridge 1:]

I can tell whatâ€™s on your mind
I know â– I know all about you
Youâ€™ve got that look inside your eye
The one I canâ€™t deny

[Bridge 2:]

Hypnotize me while we spin
Paralyze me with your skin
Iâ€™m holding on, Iâ€™m holding on
