all across the country underneath the red street lights.
punker's making money to buy beer on a friday night.
it's squeegee night! sick of sparing change no ones
gives a shit. first we'll fight the pigs later we'll get
pissed. it's squeegee night! this job gets me by keeps
me high. it's squeegee night in canada. all my life been
told to earn an honest buck. they cut me off welfare
and now i'm really fucked. it's squeegee night. trying to
stay away from job related stress. got better things to
do than trying to be the best. it's squeegee night. a
couple more bucks we're out of here! it's squeegee
night in canada!
