Into the void lonely and cold  
Your tears created this sad world  
This is the place for one that needs  
Where broken hearts can bleed

Under a shaded moon  
You're wandering around

Out of the ashes into the dark  
I'll always guide you in peace and war  
Now and forever it's you and I

Into the night together we fly  
There may be no tomorrow  
I'll give you warmth, without, you will die  
Just close your lonely eyes

Under a shaded moon  
You're wandering around

Out of the ashes into the dark  
I'll always guide you in peace and war  
Now and forever it's you and ...

Do you hear the angels sing?  
When we make love on a golden wing  
For every time that we've touched the sky  
A shooting star passed by

Under a shaded moon  
We're wandering around

Out of the ashes into the dark  
I'll always guide you in peace and war  
Now and forever it's you and ...

Do you hear the angels sing?  
When we make love on a golden wing

For every time that we've touched the sky  
A shooting star passed by

Do you hear the angels sing?  
When we make love on a golden wing  
For every time that we've touched the sky  
A shooting star passed by

Out of the ashes into the dark  
I'll always guide you in peace and war  
Now and forever it's you and I
