Trembling, baby it happens when  
You ask, "Will you have me again?"  
Trembling, I'm locked on your eyes and when  
You decide to say I'm sorry in a note, send me a note

But "I was wrong" in a letter  
Was it the one thing you won't write  
And things could be better  
If you would just set the record right

Shadowing, a feeling I know can bring  
A trust, a bond, a miracle, a story with no ending  
Sad but true, it's my turn to turn on you  
But will I decide to say I'm sorry in a note

But kind words in a letter  
Wouldn't give you anything you need  
I'll salute my own intentions  
I guess it's just the patriot in me

We've all been there in a deep despair  
And you wonder what I meant  
A broken heart when the lying starts  
Words in a letter never sent.

I'm at the end of my tether  
I've reach the point where I don't really care  
Your eyes change the weather  
Frozen in a systematic glare

You can fix your own with your heart of stone  
Carry your torch into your cave  
There's a world outside if you open your eyes  
Words in a letter could have saved

We've all been there in a deep despair  
And you wonder what I meant  
A broken heart when the lying starts  
Words in a letter never sent.  
Words in a letter never sent  
Words in a letter never sent.
