we all think the world is fine  
and death is just a waste of time  
why would you care...  
things happen now and then  
and you don't really give a damn  
when you weren't there...  
why, why would this bother  
life just seems alright  
you can't take me down there  
why would i wonder what to do now  
when the world has lost its mind  
hey i'm feeling fine  
but not when you don't care...  
school's out and victim's down  
but no one seems to be around  
cause you weren't there...  
things happen now and then  
but you don't really give a damn  
why would you care...  
i'm afraid  
of the world today  
breath the air  
and try and seem to care  
open mind  
try to feel alright  
but i'm afraid  
of the world, and i need you to be
