Don't leave me alone
Don't want to go home
This girl is turning into a woman

Blame it on the music
We'll stay together tonight
Blame it on the music
I never was feeling so right
Blame it on the music, I'm in love

Wanna whisper your name
Please kiss me again
This girl is turning into a woman

Blame it on the music
We'll stay together tonight
Blame it on the music
I never was feeling so right
Blame it on the music, I'm in love

This girl is turning into a woman

Blame it on the music
We'll stay together tonight
Blame it on the music
I never was feeling so right
Blame it on the music, I'm in love

[interlude]

Blame it on the music
We'll stay together tonight
Blame it on the music
I never was feeling so right

Blame it on the music
We'll stay together tonight
Blame it on the music
