the world is a madhouse
[x20]

they'll call your number
and then you'll say
you'll be right over there

midnight lady
walking by
midnight lady
you'll think you're smart
midnight lady
flying high
midnight lady
you're selling your heart

they call you easy
and pay you well
but the deal wasn't there

midnight lady
walking by
midnight lady
you'll think you're smart
midnight lady
flying high
midnight lady
you're selling your heart

midnight lady
walking by
midnight lady
