

Daylight Dies

"Everymakes"

Visit "[Everymakes](#)" on MotoLyrics.com

Someday I'll, I'll be better than this
The wheels are turning; change is coming
And I know I will miss
All the good things and the sunny days
That keep me coming out
Well, I'll see you again

[Chorus]

I know I can't wait forever, for this
I know all the good things won't just reappear
And I know I can't wait forever, for this
Say goodnight and all the things that she wanted to
know

Sing a song that stays
But you're the only one to tell a story
And to tell it with a smile
Today's a great day, for a nice surprise
I just love surprises

[Repeat Chorus]

And since I'm home for the night
You can come on over, we can make this right
And since I'm home for the night
Let's get close now baby
And don't let go [x4]
(Let's take a chance tonight)
